1 INTRODUCTION

This Stakeholder Engagement Plan (“SEP”) is prepared for EVYAP Operation Capital Investment Project with the reference number of EVYP-PLN-SOC-001. This SEP, which identifies target groups and the specific engagement activities required for each group, has been conducted to fulfill the required studies the Environmental and Social Impacts of the Project according to IFC Performance Standards (“PSs”), Development and Investment Bank of Turkey (“TKYB”) Environmental and Social Policy and AIIB Environmental and Social Standards (“ESSs”).

1.1 Background and Project Description

Evyap Sabun, which started its activities with soap production in Erzurum in 1927, continues its production by expanding its product range today by adding many categories such as soap, shower gel, shampoo, shaving products, skin care products, scented cosmetics, baby diapers and toothpaste. Evyap exports a significant part of Turkey’s soap and personal care products. In addition to its factory in Istanbul Tuzla Deri OSB, EVYAP offers its products to foreign markets with its production factories and liaison offices in various countries of the world. Within the scope of the project, It is planned to be used for the expenses of the business. There will be no construction work within the scope of the Project.

The location of the Project Area is in Istanbul Tuzla Leather District Zone within administrative borders of Tuzla District of İstanbul Province. There are industrial facilities in the region that carry out similar activities with the planned Project. The planned Project Area is located approximately 3,1 km from Tuzla District Centre and about 49 km to the İstanbul City Centre, covering an area of 322,713.02 m². The location of the Project area is given below in **Error! Reference source not found..1**.

AoI includes both the Project area, nearest industries, and the settlements in the vicinity of the Project area. Since the Project area is already placed in an industrial zone and the scope of the Project involves similar activities with the existing ones, area of influence is considered as an area with a 2.5 km radius. The distances of the nearest settlements to the Project Area are given in **Error! Reference source not found.** and represented in **Error! Reference source not found.** below.

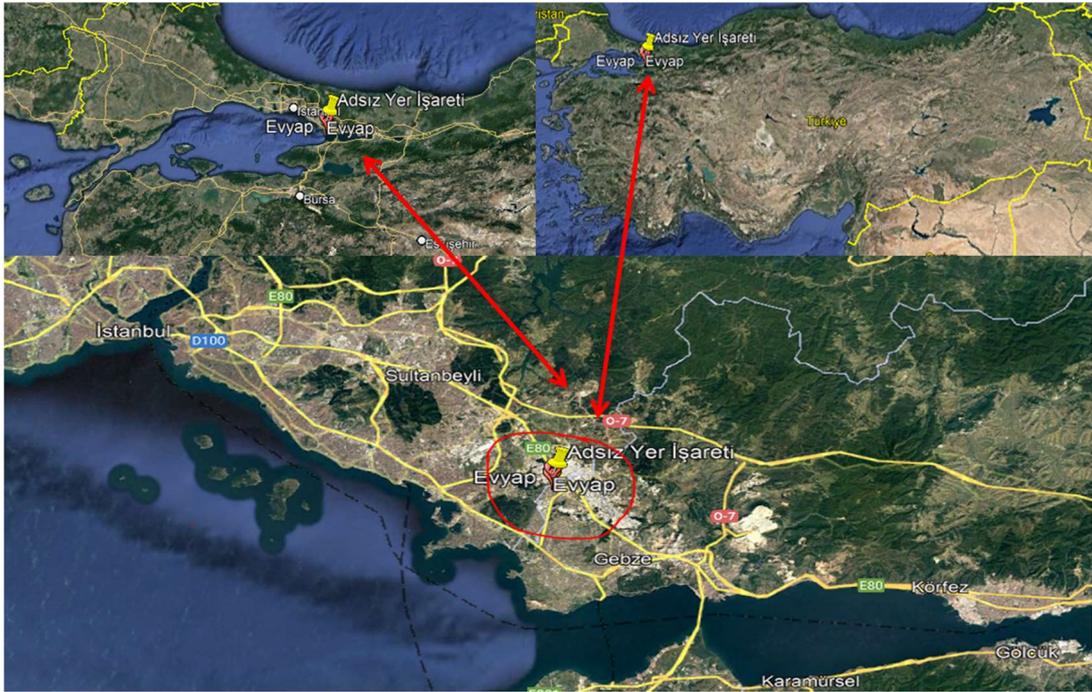

Figure 1-1. Location of the Project Area

1.2 Purpose

The goal of this document is to identify all stakeholders and their interests to the Project and to lay out the procedures and principles to create an effective communication and improve engagement with the stakeholders.

The purpose of this Plan is to:

- Identify all stakeholders and their interests to the Project,
- Set out applicable management interfaces,
- Define roles and responsibilities regarding stakeholder engagement,
- Outline the applicable Project Standards relevant to this Plan,
- Define Project commitments and procedures relevant to this Plan,
- Define monitoring requirements of stakeholder engagement activities and
- Define training requirements,
- Set out references for supporting materials and information,
- Outline alternative communication tools in case of pandemic situations.

This Plan also aims to create long-term relations between the Project and local communities based on mutual trust and transparency. By implementation of this SEP, stakeholders will be able to access to the information about the Project, its investments, installation works and operation activities in a timely manner. Data will be fully understandable for the targeted groups and access to consultation locations is available for all.

This SEP aims to ensure vulnerable groups have been identified and these groups have been included in ongoing consultation and engagement process and, to ensure that all relevant parties have been engaged and no group has been excluded. In this content, this SEP aims to be a useful tool for management of communication between the Project and its stakeholders.

The other goal of this SEP is to describe the most effective methods by:

- keeping the management of installation and operation fully informed on the issues related to external affairs and concerns,
- establishing an environment in which engagement capacities and cultural norms of each relevant group shall be respected within the scope of methods to be developed for comprehending stakeholder issues and concerns, and
- understanding the concerns of stakeholders and establishing fair, transparent and clear dialog with them based on their concerns.

1.3 Scope

This Plan is applicable to all activities of the Project, including those associated facilities and all Contractors during operation phase of the Project. All Contractors shall work in compliance with the related requirements and standards that have been set out in this Plan.

This Stakeholder Engagement Plan consists of a formal management system to establish and maintain a reliable communication with stakeholders of the Project during the lifetime of the Project. It should be updated periodically as stakeholder communication needs change.

This Plan is a part of the Management Plans developed for the Project. This Plan has overlaps and cross-linkages to Grievance Mechanism Procedure (GMP) (EVYP-PRC-SOC-001) which is applied to all internal direct and indirect workers, customers, and external stakeholders, and the Environmental and Social Management Plan with the reference number of EVYP-PLN-HSE-001 particularly concerning the contractor's activities.

1.4 Definitions

Accessibility	All employees and stakeholders can raise a comment or submit a grievance easily.
Compliant	A notification provided by a community member, group or institution to the Project that they have suffered some form of offense, detriment, impairment or loss as a result of business activity and/or contractor behavior.
Confidentiality	Anonymous complaints can be submitted and resolved. Raising a complaint will not require personal information or physical presence.
Culturally Appropriate	A complaint or an issue raised by local communities are considered in the manner of regional concerns and convenient resolution process will be taken.
External Stakeholder	Groups or individuals outside a business who are not directly employed or contracted by the business but are affected in some way from the decisions of the business, such as customers, suppliers, community, NGOs and the government.
Grievance Mechanism	A formal way that provides a clear and transparent framework for addressing, assessing, and resolving community complaints concerning the performance or behavior of the company, its contractors, or workers.
Grievance:	An issue, complaint and/or dispute that has escalated to the point where it requires third party intervention or adjudication to help resolve it. Typically, grievances are thought of as involving the community as a whole and have been unresolved for some time in a formal manner. Complaint.
Impartiality	A fair and equal grievance procedure will be applied for every complaint or concern submitted by individually or as a community.
Informed Consultation and Participation	On-going relationship based on information, consultation and participation with the indigenous peoples affected by a project throughout the project's life cycle.
Internal Stakeholders	Groups or individuals within a business who work directly within the business, such as employees and contractors

Project Affected People (PAP)	Any person who, as a result of the implementation of a project, loses the right to own, use, or otherwise benefit from a built structure, land (residential, agricultural, or pasture), annual or perennial crops and trees, or any other fixed or moveable asset, either in full or in part, permanently or temporarily.
Stakeholder	Any and all individuals, groups, organizations, and institutions interested in and potentially affected by a project or having the ability to influence a project.
Transparency	All the grievances are considered in the scope of the grievance procedure in a clear and understandable manner.
Vulnerable People	People who by virtue of gender, ethnicity, age, physical or mental disability, economic disadvantage, or social status may be more adversely affected by resettlement than others and who may be limited in their ability to claim or take advantage of resettlement assistance and related development benefits.

1.5 Key Principles

During the implementation of this Plan, following principles will be followed to achieve an effective stakeholder engagement.

- **Transparency:** All the grievances are considered in the scope of the grievance procedure in a clear and understandable manner.
- **Impartiality:** A fair and equal grievance procedure will be applied for every complaint or concern submitted by individually or as a community.
- **Confidentiality:** Anonymous complaints can be submitted and resolved. Raising a complaint will not require personal information or physical presence.
- **Accessibility:** All employees and stakeholders can raise a comment or submit a grievance easily.
- **Culturally Appropriate:** A complaint or an issue raised by local communities are considered in the manner of regional concerns and convenient resolution process will be taken.

2 ROLES AND RESPONSIBILITIES

Key roles and responsibilities relevant for the implementation of this plan are outlined in this section. Key roles and responsibilities for the implementation of this Plan are outlined in Table 2-1 for implementation of this SEP.

Table 2-1. Roles and Responsibilities

Roles	Responsibilities
<p>CEO / Project Manager</p>	<ul style="list-style-type: none"> ➤ Ensures this SEP will be implemented during the lifetime of the Project, ➤ Determines the policies and targets regarding the social communication and stakeholder engagement, ➤ Appoints the Supply Chain Services Manager / Category Leader is aware of his / her responsibilities, ➤ Evaluates the reports provided by Supply Chain Services Manager / Category Leaders and ensures necessary actions were taken, ➤ Provides necessary resources for proper implementation of this SEP and GMP.
<p>Supply Chain Services Manager / Category Leaders</p>	<ul style="list-style-type: none"> ➤ Coordinates with parties for proper implementation of this SEP, ➤ Ensuring that the grievance mechanism is implemented, ➤ Providing necessary resources for the implementation of the grievance mechanism procedure, ➤ Makes periodic inspections of the performance of Contractors of its operations during the installation phase, ➤ Reports to the CEO / Project Manager about performance of the system, ➤ Ensures national and international legislations / guidelines which are applicable to the Project activities are identified and tracked, ➤ Works in cooperation with other departments to determine targets for Environmental, Social and HS and resource efficiency issues, ➤ Makes the final decision concerning internal / external grievances (if needed) in the light of the assessments of Social Responsibility Staff of the Project.
<p>Social Responsibility Staff (SRS) / Complaint Management Representative (for customers)</p>	<ul style="list-style-type: none"> ➤ Keeps the records of the complaints / suggestions in the Grievance Database with details (by who, date, status etc.), ➤ Shows best efforts to resolve all complaints in one month, ➤ Provides regular reporting back to the community on the management related to community grievances, ➤ Records all formal and informal engagement activities with local communities in Stakeholder Management System, ➤ Keeps records of the types of leaflets, brochures, newsletters prepared and distributed, by location and this detail will be inserted to stakeholder engagement quarterly reports, ➤ Monitors and records the social responsibility activities carried out in the scope of Project and these records will be inserted to stakeholder engagement quarterly reports, ➤ Forms relationships with the Project stakeholders, ➤ Organizes stakeholder meetings to collect the responses to grievances actively as required, ➤ Determines and provides the necessary training materials for employees, ➤ Searches the causes of the grievance and the social incidents that cause; injuries, delays or stoppage in the work and disputes among the Project and communities, ➤ Monitors all complaints and ensures that all complaints are resolved and closed, ➤ Follows the results of complaints and report on a weekly, monthly, and annual basis,

Roles	Responsibilities
	<ul style="list-style-type: none"> ➤ Records and reports general and local employment rates and complaints, which are received or observed verbally, ➤ Filling out the “Complaint Register Form & Consultation Form” (see <i>Appendices A and B</i>), ➤ Gives the feedback to the stakeholders about the results of their grievances through Complaint Register Form within 30 calendar days (complainants who have provided their names and contact info will be notified within 5 days that the grievance solution process has started and after the grievance closed), ➤ Implements the SEP and GMP.
<p>Health and Safety and Environment (HSE) Manager</p>	<ul style="list-style-type: none"> ➤ Determines the national and international legislations that are applicable to the Project activities and informs the Supply Chain Services Manager / Category Leaders, ➤ Determines the environmental impacts and OHS hazards in accordance with the actions, potential mitigation measures and measures to eliminate any potential social grievances, ➤ Ensures that all provisions in the Contractor engagements regarding environment, social and HS requirements as per the project standards during the installation stage and to audit the performance of the Contractors, ➤ Provides answers to the OHS, environment and social grievances raised by employees, the local community, and local institutions, ➤ Helps SRS for keeping the record of the complaints/suggestions in the Grievance Database with details, ➤ Supports SRS on the first evaluation of the relevance of grievances collected, ➤ Supports SRS for recording all formal and informal engagement activities, ➤ Checks the Environmental records and performance reviews of Contractors.
<p>Document Control Center (DCC) Staff</p>	<ul style="list-style-type: none"> ➤ Makes documents accessible to all Project employees (including Contractors / Subcontractors’ employees), ➤ Records and keeps up to date all permits and/or the results of measurements taken within the scope of the Project, ➤ Uploads all management plans, policies, training minutes, environmental, social and HS records.
<p>Contractors / Subcontractors</p>	<ul style="list-style-type: none"> ➤ Contractors / Subcontractors are responsible not to make any commitment in their interaction with the stakeholders beyond their competence, ➤ Follows the rules listed in this SEP and other relevant Management System documentation of the Project. ➤ Complying with the requirements and standards of the grievance mechanism procedure.

3 PROJECT STANDARDS

This SEP is prepared based on national and international requirements and standards. During the lifetime of the Project, “Project Standards” will be followed which consist of:

- applicable Turkish Standards and Turkish EIA requirements,
- other commitments to and requirements of Turkish Government authorities,
- applicable international standards and guidelines,
- interim advice on “Safe Stakeholder Engagement in the context of COVID-19” by IFC.

3.1 Applicable National Standards

The Constitution of The Republic of Turkey

The main document of the national requirements and standards is “The Constitution of The Republic of Turkey” which comprises articles related to human and labor rights, peace of the community and stakeholder engagement of the Project. These articles are as follows:

X. Legal Egalitarianism

ARTICLE 10. Everyone is equal before the law regardless of distinction as to language, race, color, sex, political opinion, philosophical belief, religion or any similar reasons. Men and women have equal rights which are the obligation to be ensured exist in practice by the government. Measures taken for this purpose shall not be interpreted as contrary to the principle of equality.

II. Prohibition of Forced Labor

ARTICLE 18. Nobody can be forced to work. Drudgery is prohibited. Employers are not allowed to take deposits of money from workers and retain ID Cards.

VII. Freedom of Thought and Opinion

ARTICLE 25. Everyone has the right to freedom of thought and opinion. For whatever reason and purpose, nobody can be forced to explain their thoughts and opinions; cannot be condemned and accused of their opinions.

VIII. Freedom of Expression and Dissemination of Thought

ARTICLE 26. Everyone has the right to express and disseminate his thoughts and opinion by speech, in writing or pictures or through other media, individually or collectively. This right includes the freedom to receive and give information and ideas without interference from official authorities.

VII. Right of Petition

ARTICLE 74. Turkish citizens and foreign residents have the right to raise requests and complaints concerning themselves or the public in writing to the competent authorities and the Turkish Grand National Assembly.

Law on The Right to Information

Everyone has the right to give information on the activities of public institutions and professional organizations, which qualify as public institutions. The procedure and the basis of the right to information according to the principles of transparency, equality and impartiality are regulated in the *Law on Right to Information* numbered 4982 and issued on 24.10.2003 with the official gazette number of 25269.

Law on The Use of Right to Petition

ARTICLE 3. Everyone has the right to apply in writing to the Turkish Grand National Assembly and the component authorities concerning the requests and complaints concerning themselves or the public according to this article of the *Law on the Use of Right to Petition* No. 4982 which was issued on 01.11.1984 with the official gazette number of 3071.

Labour Law

The Principle of Equal Treatment

ARTICLE 5. Discrimination in employment is prohibited. No discrimination based on language, race, sex, political opinion, philosophical belief, religion and sex or similar reasons is permissible in the employment relationship. Except for biological reasons or reasons related to the nature of the job, the employer must not make any discrimination, either directly or indirectly, against an employee in the conclusion, conditions, execution and termination of his/her employment contract due to the sex or maternity of employee. The differential remuneration for similar jobs or work of equal value is not permissible.

The Worker's Right of the Immediate Termination for the Valid Reason

ARTICLE 24. Whether or not the duration is fixed, the worker can terminate before the end of the contract or without waiting for the notice period. The employment contract is not subject to any special form unless the contrary is stipulated by the Law.

Overtime Work

ARTICLE 41. Overtime work can be done for reasons such as the general benefits of the country and increased production. Overtime work requires the employee's consent.

ARTICLE 42. Compulsory overtime work is only allowed for all or some of the employees in case of a breakdown, whether actual or threatened or in the case of urgent work to be performed on machinery, tools or equipment or in case of force majeure. Compulsory overtime work shall not exceed the time necessary to enable the normal operating of the establishment.

Working Age and Prohibition of Child Employment

ARTICLE 71. The employment of children under the age of fifteen is prohibited. However, children who have reached the age of fourteen and have completed their primary education may be employed in light labor that will not hinder their physical, mental or moral development.

Unions and Collective Agreements Law

Workers are covered by the legislation numbered of 6356 (dated on 07.11.2012, Official Gazette No. 28460). There are four types of collective agreements regulated which are workplace collective bargaining agreement, enterprise collective agreements, group collective agreements, and framework agreements.

Environmental Law

The main law of National Environmental Legislation is the Environmental Law numbered 2872 which was issued on 11.08.1983 with the official gazette number of 18132. In this law, the Turkish Regulation on *Environmental Impact Assessment (EIA)* (Official Gazette, 17 July 2008, no 26939) is defined which includes a limited public disclosure process.

3.2 Environmental and Social Policy of TKYB

Within this scope, the TKYB closely follows and implements national legislation, laws and regulations to manage its environmental and social impact while fulfilling its legal obligations. It consistently follows national and international developments within the industry and best practices in environmental and social issues. The Bank supports and joins all kinds of environmentally friendly activities and volunteering efforts particularly concerning education and the environment, along with all public and civil society organizations as well as other shareholders who enhance social prosperity and development.

While reducing its negative impact stemming from operational activities, the Bank supports positive environmental movements with its efforts to increase energy and resource efficiency.

To this end, the Bank regularly monitors energy, water and paper use, air emissions, waste generation and greenhouse gas emissions and aims to improve its reduction performance.

The Environmental Management System targets the principles below:

- Reduce the use/waste of resources and the generation of waste while we carry out our activities and services without any loss in our quality of service,
- Create a positive environmental impact and awareness through the Bank's activities and services,
- Minimize our damaging impact on human health and the environment,
- Ensure sustainability and continuous improvement of the established system,
- Support all environmentally friendly activities and all kinds of volunteering activities,
- Establish a management system that is world-class and compliant with the TS-EN-ISO 14001 Environmental Management System Standards.

3.3 Applicable International Standards and Guidelines

International standards to be observed by the Project are the IFC Performance Standards and AIBB ESSs. Particularly, IFC: Performance Standard 1 shall be complied with as they address stakeholder engagement. Basic objectives of international standards and guidelines are as follows:

- To define project affected people and communities and other relevant parties having an effect on, having been affected by, and/or that may be affected by the activities and implementations of the Project; and to develop an appropriate procedure to identify and confirm them,
- To prepare a database comprised of the relevant stakeholder of the Project and its associated facilities and to continuously update it,
- To review this database in consultation with relevant parties,
- To provide necessary information and consultancy services to all stakeholders to facilitate their required contributions on the environmental and social issues that may affect them,
- To continuously protect respectful and constructive relations with stakeholders based on mutual confidence and honesty, and by respecting the values of the stakeholders.

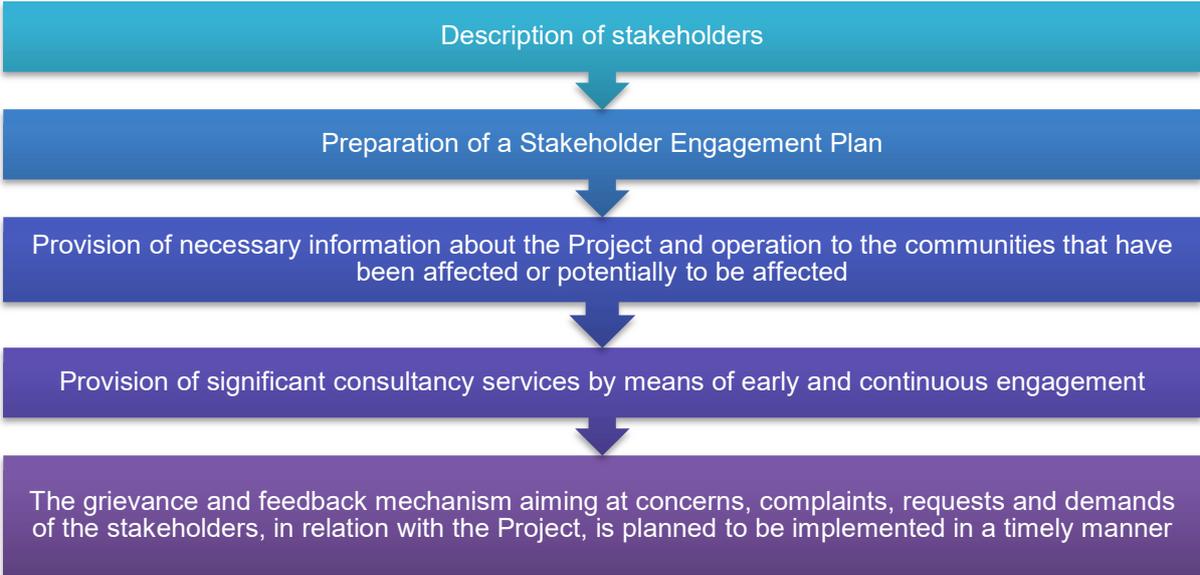

Figure 3-1. Main Requirements of International Standards and Guidelines regarding Stakeholder Engagement

3.3.1 IFC Performance Standards

The key requirements related to stakeholder engagement from IFC Performance Standard 1 can be summarized as follows:

- An Environmental and Social Management System (“ESMS”) should be prepared and implemented, and the element of stakeholder engagement should be included,
- The range of stakeholders should be identified, if affected communities may be adversely impacted, then a Stakeholder Engagement Plan should be developed and implemented.
- When applicable this SEP is to include differentiated measures to allow for the effective participation of those identified as disadvantaged or vulnerable.
- Affected Communities will be provided with access to relevant information on (i) the purpose, nature, and scale of the Project; (ii) the duration of proposed project activities; (iii) any risks to and potential impacts on such communities and relevant mitigation measures; and (iv) the envisaged stakeholder engagement process and (v) the grievance mechanism.
- A process of effective consultation will be conducted in a manner that allows affected communities to express their views on project risks, impacts and mitigation measures, and will allow for the Project owner to respond to them.
- When potentially significant adverse impacts on affected communities exist, an Informed Consultation and Participation (ICP) is to be conducted.

IFC defined “Key Concepts and Principles of Stakeholder Engagement” in its A Good Practice Handbook. The building blocks of stakeholder engagement are listed below:

- Stakeholder Identification and Analysis
- Information Disclosure
- Stakeholder Consultation
- Negotiation and Partnerships
- Grievance Management
- Stakeholder Involvement in Project Monitoring
- Reporting to Stakeholders

3.3.2 I-AIIB Requirements

In Environmental and Social Framework set out by AIIB describe the stakeholder engagement as follows:

*“The Bank believes that transparency and meaningful consultation is essential for the design and implementation of a Project and works closely with its Clients to achieve this objective. Meaningful consultation is a process that begins early and is ongoing throughout the Project. It is **inclusive, accessible, timely and undertaken in an open manner**. It conveys adequate information that is understandable and readily accessible to stakeholders in a culturally appropriate manner and in turn, enables the consideration of stakeholders’ views as part of decision-making. Stakeholder engagement is conducted in a manner commensurate with the risks to, and impacts on, those affected by the Project.”*

3.4 Project Standards

The Project will meet both national and international standards. In case those differ, the most stringent requirement will be met.

4 STAKEHOLDER ENGAGEMENT

4.1 Early Engagement

Since all the activities / productions of the project are considered out of scope when examined in terms of the national EIA Regulation, no public participation meeting was held during the establishment of any production in accordance with the aforementioned regulation. However, during the interviews with the EVYAP authorities, it was learned that all EVYAP have in good relationship with the project stakeholders. In addition, EVYAP managing many social responsibility projects in national scale.

The e-mail address and telephone number of the Project site are presented on the website of EVYAP (www.evyap.com.tr). The communication / consultation form should be presented on the website of the Project Company. Grievance forms (Complaint Register Form) will be presented as Appendix A.

MGS conducted interviews with an environmental engineer of İstanbul Leather (OSB), and workers of EVYAP on 4th of November 2021 for Environmental and Social Due Diligence studies to assess the stakeholder engagement and relations, specific grievance, and requests.

During the consultation it was stated that there is constant and efficient communication with EVYAP. He mentioned that EVYAP has always been in contact at all stages of the planned Project up to now. Additionally, it is also emphasized that they have never received any complaints Project activities or Project Stakeholders in anyway. Finally, it is indicated that EYVAP can be introduced as a model company in the İDOSB, in terms of their disciplinary and canonical attitudes. Details of interviews are presented in ESDD Report of the Project.

In these interviews, no other concerns are raised. Common expected positive impacts obtained from these interviews are as follows:

Expected Positive Impacts:

- Increasing number of environmentally friendly products,
- Being an example application for other companies,
- Increase in employment opportunities and new hires.

Suggestions:

- No additional suggestion was raised.

Figure 4-1. Interview with an employee of EVYAP

4.2 Stakeholder Identification

All stakeholder groups that have an interest in, that might be affected by, or that might have an influence on the outcome of the Project were identified during the early engagement of the Project. Stakeholder identification was completed and involved screening a wide array of potential stakeholders, including institutions, associations, NGOs and other informal groups, that should be involved in the engagement process.

The stakeholders were then classified according to their type and status based on the profile that the stakeholder has within the social structure of the context. The identified stakeholders are presented in Table 4-1.

Table 4-1. Stakeholder Groups

Stakeholder Groups	Stakeholder Type	
	Affected	Interested

<ul style="list-style-type: none"> ➤ Employees of the Project 	✓	✓

4.3 Stakeholder Engagement Program

The objectives of external communications are to provide continuous engagement with targeted audiences to inform about the company activities, including company performance, company development and investment plans and their implementation.

The methods of communication to be utilized are summarized in the following Stakeholder Engagement Program and will include:

- Publication for public review of the Stakeholder Engagement Plan and Environmental and Social Action Plan,
- Meetings with regulatory bodies,
- Public meetings,
- Published on local municipalities' website (if available) and/or on a dedicated Sponsor's website,
- Announcements through mukhtars and locals,
- Provision of general information on noticeboards at key public locations.

The following Table summarizes the stakeholder engagement program in terms of:

- Activity / project,
- Type of information disclosed,
- Location and dates of meetings / forms of communications,
- Stakeholder groups consulted.

In this respect, the following the stakeholder engagement program presented in Table 4-2 is developed accordingly.

Table 4-2. Stakeholder Engagement Programme

4.4 Tools & Methods for Information Disclosure

The Project will provide transparent informative material to the affected communities and the stakeholders in a consistent and timely manner. The manner in which this material will be disclosed is discussed in the sections below.

4.4.1 Internal / Web Site

Project specific web site (www.evyap.com.tr) will keep information on the operations updated on an assigned website in both Turkish and English. In fact, informative brochures, Grievance Mechanism Procedure should be available on this assigned website for each of the facilities, and through this website, it should be possible to send grievances to the company.

4.4.2 Information Sheets

Information sheets including a non-technical summary of the Project, key project issues and details regarding the Project's approach to minimizing, mitigating, and managing potential negative impacts will be prepared and made available on the Project websites. The copies of these information sheets will be posted at the mukhtar offices of the affected communities identified as stakeholders.

4.4.3 Responding to Local Communities and Publications for People

Authorities of the Project will give full and timely responses to requests, comments, and questions of local communities in addition to implementing the grievance procedure in the case of complaints. All requests shall be treated respectfully. In the event that it is not possible to meet a particular request, then a detailed explanation as to why not, will be given through the use of grievance mechanism procedure and other social plans.

At the Project Company website, material providing information about different stages of the project will be available, and stakeholders will be kept posted. When needed, matrices and informative documents will be prepared as a response to concerns, complaints and requests of stakeholders and local communities based on impact assessment surveys carried out by company. As long it is appropriate, relevant Project information will be disclosed to the public.

4.4.4 Disclosure Activities

During this engagement phase, disclosure and consultation activities will be designed along the following general principles:

- Consultation events and opportunities should be widely and proactively publicized, especially among Project affected parties, at least 1 week prior to any meeting via

website announcements, through İDOSB and mukhtars and posted information banner in their offices,

- The location and timing of any meetings will be designed to maximize accessibility to Project affected stakeholders, if needed transportation arrangement will be made by the Project to increase participation in meetings,
- The information presented (via presentations, leaflets, website publications etc.) will be clear and will be presented in a non-technical language understood by those in the communities,
- Simplified system will be provided to ensure that stakeholders are able to raise their concerns and the Project will encourage the stakeholders to raise their concerns/complaints and suggestions, and
- Issues raised are to be answered at the meeting or, if an answer is not immediately available, these issues will be actively followed up on, the person who raised the issue will be informed after the meeting when the issues resolved.

Project related information communication meetings will be open to the entire public and will be announced through İDOSB and local mukhtars. Furthermore, they will be held at the locations where stakeholders (especially local communities) can easily reach like the local Mukhtar offices. The Project will inform the public via meetings, media and other similar means, about how people can access Project related documents (such as this SEP and grievance mechanism procedure) and the project timetable, and how they can submit comments regarding said documents.

In case of unexpected pandemic situations like COVID-19, it is required to develop safe and effective stakeholder engagement and grievance management for maintaining a proactive communication process and providing communities with information in a timely manner. The alternative communication methods such as online platforms should be produced and provided by the Project. Based on the principles of stakeholder engagement and grievance mechanism, alternative communication tools and methods can be as follows:

- Digital platforms, social media, and messaging platforms,
- Secure grievance portal,
- Announcements through the website,
- Online stakeholder engagement workshops by using live web streaming,
- Multiple communication options such as closed captioning for video/conference calls.

5 MANAGEMENT OF GRIEVANCE

5.1 Grievance and Feedback Procedure

Grievances are complaints, suggestions and problems that employees and external stakeholders raise on a specific issue. The spectrum of grievances ranges from major and potentially illegal issues such as discrimination or victimization in the workplace to more minor day-to-day disputes of local stakeholders or Project Affected People (PAP). Grievance procedures provide a clear and transparent framework to deal with difficulties. A grievance mechanism is a structured process that allows complainants to address disputes, fear and aspirations, concerns in a fair, easily accessible, and transparent manner.

Grievance procedures provide a clear and transparent framework to deal with difficulties. A grievance mechanism is a structured process that allows complainants to address disputes, fear and aspirations, concerns in a fair, easily accessible and transparent manner.

Grievance procedures will be coordinated through the appointed Social Responsibility Staff (SRS) who is the primary interfaces between the community and the Project. Complainants will have the chance to provide their names in order to gain effective feedback on their complaints/grievances, however; confidentiality procedures will be put in place to protect the complainant, as appropriate. SRS is recommended to be nominated from Human Resources department. The SRS is expected to conduct a bridge between the company and the employees, in order to formalize the grievance process and procedures, as it is existent, but in a non-formal way.

The grievance mechanism will be informed to the stakeholders so that they are aware of the process, having knowledge of the right to submit a grievance and understand how the mechanism will work and how their grievance will be addressed. In most cases, a grievance or complaint will be submitted by a stakeholder or local resident by phone, in writing or by speaking with the company SRS if it is not anonymous.

In addition, the mechanism shall also constitute an internal grievance process, conducted specifically for employees, subcontractors, and other suppliers of the Project.

5.1.1 Principles of the Grievance Mechanism (Internal and External)

The grievance mechanism is developed to cover the following:

- **Simplicity and necessity:** Procedures will be kept as simple as possible, avoiding unnecessary administrative stages. Fair and transparent, informative for relevant people.

- **Keeping it up to date:** The process will be regularly reviewed jointly by the SRS. Regular monitoring and evaluation should be conducted continuously.
- **Confidential and impartial process, non-retribution:** The process will be confidential and impartial, without employees fearing retribution.
- **Reasonable timescale:** A certain timeframe to deliver responses and solve the problems mentioned will be followed, which is 30 days as the assigned duration for grievance resolution.
- **Keeping of records:** Grievances are tracked and recorded in a written manner, hard and soft copies, if possible.
- Workers should not experience retribution for raising concerns through such mechanisms.

5.1.2 Collection, Registration and Evaluation of Grievances

Handling of grievances (collection, registration, and evaluation) will follow these steps:

- Initiate the grievance procedure by filling up a Complaint Register Form (see Appendix A), mainly by the SRS,
- SRS registers the grievance/comment in the grievance database (see Appendix C);
- The SRS investigates the grievance and makes the first evaluation with the help relevant Department Chief;
- Final decision is made, and further action is implemented in order to solve the grievance;
- The complainant is notified (if name provided) within 5 days that the grievance solution process has started;
- The complainant is informed about the resolution (at most in 30 days after the grievance is received);
- The grievance is officially closed after related documentation (Grievance Closure Form given in Appendix D) is completed; and
- Anonymous complaints will not be efficient to handle; however, no one will be forced to provide names.

Depending on the type of the grievance, sharing of responsibilities should be elaborated among the related departments; however, handling and tracking should be ensured to be done mutually.

A complaint register form is prepared for official notification of complaints about the Project. “Open door policy” shall not be encouraged as the one and only way of communication, so, reporting of complaints in writing should also be encouraged.

5.1.3 Feedback to the Stakeholders

Feedback duration on the status of the delivered grievance, is assigned as 30 calendar days, after the receipt of the grievance. If the complainant has provided a name and contact information, this will give the chance to inform them about the status of their grievance within 5 working days of grievance receipt.

It is important to monitor the on-going stakeholder engagement process to ensure that consultation and disclosure efforts are effective, and stakeholders delivering grievances have been meaningfully consulted throughout the process. It is also important to monitor to ensure that expectations are managed, and the Project builds a more meaningful relationship with stakeholders. This is essential in maintaining a ‘social license to operate’, which refers to the ongoing acceptance of a company or industry’s standard business practices and operating procedures by its employees, stakeholders, and the general public.

The SEP will be reviewed and revised (if needed) annually during the operation phase, while the grievance mechanism will be continuously reviewed. In addition, the project stakeholders list will be reviewed and updated, if necessary.

5.1.4 Grievance Mechanism Communication

Employees should know whom they notify to in case of the event of a grievance and the support is available. Managers should be familiar with procedures. Details about the procedures should be easily available, for example in employee handbooks or flowcharted in local places.

For the collection of internal grievances from employees:

- Grievance mechanism process will be communicated with all employees (including contractor’s employees) during the recruitment process and the first HSE training sessions will also include the stakeholder engagement and grievance mechanism process trainings;
- Communication about the grievance mechanism will be repeated regularly with the toolbox trainings;
- The grievance/suggestion boxes will be made available at the Project site offices for internal grievances; and

- All employees will be aware of the location of the grievance/suggestion boxes and how to submit their grievances (either through web site or with grievance/suggestion boxes).

For the collection of internal grievances from community:

- Grievance mechanism process will be communicated with stakeholders during stakeholder engagement meetings (including the locations of the grievance/suggestion);
- Stakeholders will be aware of the location of the grievance/suggestion forms presented on the website and how to submit their grievances (either through web site or with grievance/suggestion boxes).

The grievance mechanism constitutes two parts: External and internal (Workers, subcontractors and suppliers of the Project). These two mechanisms will have different respondents: External Grievance Mechanism will be run by the SRS, while internal grievances will be under the responsibility of SRS and collaborating different departments such as Quality Control, HSE and HR. A sample of the internal grievance form is presented in Appendix A.

5.2 Contact Details

The existing contact details of the Project is given below. The contact information regarding the assigned SRS (name and contact number/e-mail address) should be included when this Plan is updated. Also, it is recommended that an online grievance register form should be integrated into the Project website.

Table 5-1. Details of Contacts

Evyap Sabun Yağ Gliserin San. ve Tic. A. Ş	Contact Person on the Project Site
<p>Website: https://www.evyap.com.tr</p> <p>Address: İstanbul Deri Organize Sanayi Bölgesi Güderi Caddesi No: 1 Parsel (34957) Tuzla – İSTANBUL</p> <p>Phone: +90 (216) 581 07 00</p>	<p>Phone: To be determined.</p> <p>E-Mail: To be determined.</p> <p>Address: To be determined.</p>

6 MONITORING

6.1 Key Monitoring Activities

The Project will monitor the implementation of the stakeholder engagement process (consultations, grievance mechanism etc.). The outputs of this monitoring will also provide

input on the management and monitoring of the overall environment, health and safety (labor rights) and social performance of the Project mainly through:

- Revision, improvement or extension of the monitoring activities, parameters, locations and frequency,
- Reviews and revisions of the management plans and procedures.

The Project will monitor the effectiveness of the engagement processes by analyzing the feedback received from engagement activities, thus involving the engaged stakeholders into the monitoring process.

During all engagement activities, where appropriate, questions will be asked to stakeholders on the effectiveness of the meeting and the process of stakeholder engagement. These questions will be tailored for the engaged stakeholder, but will address mainly:

- Transparency and accessibility of the engagement process,
- Provision of relevant information,
- Timely responses (ongoing communication),
- Clarity and simplicity of the information provided, and
- Applicability and relevancy of the information provided.

For an effective stakeholder engagement more than 50% of the stakeholders are expected to provide positive feedback to these enquiries. The key monitoring activities will focus on ensuring compliance with the requirements set out in this Plan using the key performance indicators.

Table 6-1. Key monitoring Measures

Topic	Indicator	Method	Periodicity	Location
Grievances/ Concerns	<p>The Project will review Grievance Log/Database, including complaints <i>closed</i> and <i>unresolved</i> per period at a minimum monthly to include:</p> <ul style="list-style-type: none"> ➤ number of outstanding complaints and grievances opened in the month, ➤ number of complaints and grievances opened in the month and evolution since Project start (graphic presentation), ➤ number of complaints grievances closed in the month; and ➤ type of grievance. 	Grievance Database	Monthly	Office

Topic	Indicator	Method	Periodicity	Location
Visitor to the Office	Visitors will be recorded including the information of the reason for visit etc.	Visitor Records	Monthly	Office
Community Engagement Activities	The SRS will record formal and informal engagement with local communities.	Community Engagement Records	Monthly	Office
Disclosure Materials and Feedback to Communities	SRS will keep records of the types of leaflets, brochures, newsletters prepared and distributed. SRS will monitor feedback to local communities.	Community Info System on the Website	Quarterly	Office
Social Responsibility Program	SRS will monitor and record the social responsibility activities carried out in the scope of Project and these records will be inserted to stakeholder engagement quarterly reports.	Annual reports	Bi-annually (installation) Annually (operation)	Office

6.2 Key Performance Indicators (KPIs)

The following table summarizes the key performance indicators and associated key monitoring actions that can be used to assess the progress and effectiveness of the stakeholder engagement performance.

Table 6-2. Key Performance Indicators (KPIs)

KPI	Target	Monitoring Measures
Number of community complaints or grievances	Total number reduced year on year	Grievance Database
% of complaints that are responded within 5 working days	Delivery of regular reports to stakeholders on the outcomes of the Grievance Mechanism	Reporting
% of complaints that are closed within 30 days.	100% of the complaints are closed within 30 working days	Grievance Database
% of visitors that are received Visitor Training on general site rules, especially OHS issues	100% of the visitors are received Visitor Training	Visitors Registers

KPI	Target	Monitoring Measures
Auditing Grievance Procedure to ensure that it is being implemented and grievances are being adequately addressed.	Annual audit complete target of 100% of grievances close out to satisfaction of complainants within 30 working days	Audit Report

7 TRAINING

All necessary training will be provided as induction training to provide general awareness for all employees of the Project and its contractors. Job-specific training will be also provided as necessary including grievance management procedure. The implementation of this grievance mechanism will be followed by the Social Responsibility Staff and other personnel and supervisors of the Project Contractors are also involved in the stakeholder engagement activities and grievance mechanism procedure.

7.1 Induction Training

The induction training will provide information about the worker grievance mechanism to all direct and indirect workers. The trainings will be given in the first “Induction Training” session. All employees of the Project and contractors are required to participate in community relations and human rights training. This training will provide the information on how to understand and respect different cultures and opinions and to be an effective team member by behaving appropriately with locals and colleagues.

7.2 Job Specific and Other Training Requirements

Job-specific training and additional specialist training (if there any) for key personnel involved in the community, then it will be provided to those and employees for grievance management. Specific training on the application of the Stakeholder Engagement Plan and Grievance Management is also provided to the Social Responsibility Staff and other personnel and supervisors of the Project and contractors involved.

8 AUDIT AND REPORTING

In this section, auditing internally and externally is involved. For the Project activities, record keeping, and reporting basics are explained.

8.1 Internal and External Auditing

Routine internal inspections will be carried out by Social Responsibility Staff during the operational phase regarding the proper implementation of the SEP. The conformance will be monitored in accordance with the requirements set out in this Plan. The aspects of this management plan are subject to regulatory audits.

In the scope of external auditing on the other hand, the conformance with this SEP will be subject to periodic assessment as part of the EYAP audit program and separately by Project Lenders.

8.2 Record Keeping and Reporting

Record keeping will be done by SRS during the following cases:

- Consultation meetings,
- Community engagement activities,
- Grievances actions and close out of grievances,
- Concerns/opinions/suggestions by the local community during consultation meetings and stakeholder engagement activities,
- Audits, investigations and incidents which will be managed according to the Project procedures.

On monthly basis, an overview of the grievances recorded in terms of number and type will be investigated. The situation of the grievances as open/closed out will be developed periodically. The Social Responsibility Staff will evaluate and conclude this overview with project management in the monthly progress meetings.
